((CENTRIC))

Insurance Analytics Platform

Wherever you are in your analytics journey, Centric's pre-engineered platform accelerates insight-driven decision making.

Why Partner with Us

Our Insurance Analytics Platform is a pre-engineered analytics solution that powers business insights that drive premium growth, retention and improved operational efficiency.

The platform supports our comprehensive Insurance Value Chain, which ties performance metrics to functional areas of your business. Data Governance is applied throughout to drive consistency and accuracy.

Centric will incorporate your enterprise data into a Modern Data Platform, enabling business intelligence, predictive analytics, scalability and extensibility.

Centric Insurance Practice

With Centric as a consulting partner, insurers have improved operational efficiency, grown profits and turned disruption into transformation. So can you.

MORE THAN 750 PROJECTS DELIVERED

Our consultants have delivered high-profile projects for 60+ carriers throughout the U.S.

MORE THAN 350 INSURANCE RESOURCES

Our seasoned consultants have deep experience in the Property & Casualty and Life & Annuity insurance industries.

GLOBAL SOURCING CAPABILITY

Our local talent and offshore resources provide broad-range and cost-effective business solutions.

Insurance Value Chain

Insurance Analytics Capabilities

Our platform works even when your data spans multiple core systems.

PRE-BUILT VISUALIZATIONS

Designed to support the Value Chain and Use Cases. Enables ad-hoc analysis, reducing dependence on IT for reports and data queries.

BUSINESS & METRIC DEFINITIONS

Clearly defined definitions allow management to make decisions from Visualizations and Data Model, customized to your requirements.

INSURANCE ANALYTICS PLATFORM

Powering insight-driven decisions across your value chain

INSURANCE DATA MODEL

Over 150 tables and 800+ attributes designed to support visualizations, machine learning and other reporting supported by the platform.

MICROSOFT FABRIC & AZURE

Built on Microsoft Fabric and Azure, the platform delivers scalable analytics, real-time intelligence and enterprise-grade data management in a unified cloud environment.

About Centric

Centric Consulting is an international management consulting firm with unmatched in-house expertise in business transformation, hybrid workplace strategy, technology implementation and adoption. The firm has established a reputation for combining the benefits of experience, flexibility and cost efficiency with the goal of creating custom solutions centered on what's best for your business.

We serve clients across the nation - and you get solutions designed for you by industry, business and technology consulting experts from the U.S. and India.
